The drawing shows a facade with a total width of 2640 and a total height of 1040. The facade is divided into several sections with varying heights and widths. The top section has a height of 80. The middle section has a height of 400. The bottom section has a height of 320. The width of the sections is as follows: 80, 240, 80, 320, 80, 480.2, 80, 559.8, 80, 320, 80, 160, 80. The total width is 2640. The total height is 1040. The drawing includes structural details such as columns and beams. A vertical dimension line on the right side indicates a height of 320 for the bottom section. A horizontal dimension line at the bottom indicates a width of 1120 for the first four sections. A horizontal dimension line at the bottom indicates a width of 1520 for the last six sections. A horizontal dimension line at the bottom indicates a width of 2640 for the entire facade. A vertical dimension line on the left side indicates a height of 80 for the top section. A vertical dimension line on the left side indicates a height of 400 for the middle section. A vertical dimension line on the left side indicates a height of 320 for the bottom section. A vertical dimension line on the right side indicates a height of 320 for the bottom section. A horizontal dimension line at the top indicates a width of 1120 for the first four sections. A horizontal dimension line at the top indicates a width of 560 for the next two sections. A horizontal dimension line at the top indicates a width of 960 for the last two sections. A horizontal dimension line at the top indicates a width of 2640 for the entire facade. A vertical dimension line on the right side indicates a height of 80 for the top section. A vertical dimension line on the right side indicates a height of 400 for the middle section. A vertical dimension line on the right side indicates a height of 320 for the bottom section. A horizontal dimension line at the bottom indicates a width of 80 for the first section. A horizontal dimension line at the bottom indicates a width of 240 for the second section. A horizontal dimension line at the bottom indicates a width of 80 for the third section. A horizontal dimension line at the bottom indicates a width of 320 for the fourth section. A horizontal dimension line at the bottom indicates a width of 80 for the fifth section. A horizontal dimension line at the bottom indicates a width of 480.2 for the sixth section. A horizontal dimension line at the bottom indicates a width of 80 for the seventh section. A horizontal dimension line at the bottom indicates a width of 559.8 for the eighth section. A horizontal dimension line at the bottom indicates a width of 80 for the ninth section. A horizontal dimension line at the bottom indicates a width of 320 for the tenth section. A horizontal dimension line at the bottom indicates a width of 80 for the eleventh section. A horizontal dimension line at the bottom indicates a width of 160 for the twelfth section. A horizontal dimension line at the bottom indicates a width of 80 for the thirteenth section. A vertical dimension line on the left side indicates a height of 80 for the top section. A vertical dimension line on the left side indicates a height of 400 for the middle section. A vertical dimension line on the left side indicates a height of 320 for the bottom section. A vertical dimension line on the right side indicates a height of 320 for the bottom section. A horizontal dimension line at the top indicates a width of 1120 for the first four sections. A horizontal dimension line at the top indicates a width of 560 for the next two sections. A horizontal dimension line at the top indicates a width of 960 for the last two sections. A horizontal dimension line at the top indicates a width of 2640 for the entire facade. A vertical dimension line on the right side indicates a height of 80 for the top section. A vertical dimension line on the right side indicates a height of 400 for the middle section. A vertical dimension line on the right side indicates a height of 320 for the bottom section. A horizontal dimension line at the bottom indicates a width of 80 for the first section. A horizontal dimension line at the bottom indicates a width of 240 for the second section. A horizontal dimension line at the bottom indicates a width of 80 for the third section. A horizontal dimension line at the bottom indicates a width of 320 for the fourth section. A horizontal dimension line at the bottom indicates a width of 80 for the fifth section. A horizontal dimension line at the bottom indicates a width of 480.2 for the sixth section. A horizontal dimension line at the bottom indicates a width of 80 for the seventh section. A horizontal dimension line at the bottom indicates a width of 559.8 for the eighth section. A horizontal dimension line at the bottom indicates a width of 80 for the ninth section. A horizontal dimension line at the bottom indicates a width of 320 for the tenth section. A horizontal dimension line at the bottom indicates a width of 80 for the eleventh section. A horizontal dimension line at the bottom indicates a width of 160 for the twelfth section. A horizontal dimension line at the bottom indicates a width of 80 for the thirteenth section.
